God is Pure and Holy – Feelings and emotions

We can feel angry but we can stop ourselves from shouting or hurting someone.

We can feel jealous but we can ask God to help us love that person instead.

We can feel sad but we can ask God to help us feel better.

Draw these faces in your book and show how the person feels by drawing eyes and mouth.

The Fruit of the Spirit

The Bible tells us about 9 values that God wants us to show in our lives. You can read about these in Galatians 5:22-23

Showing the Fruit of the Spirit can help us show our emotions in the right way.

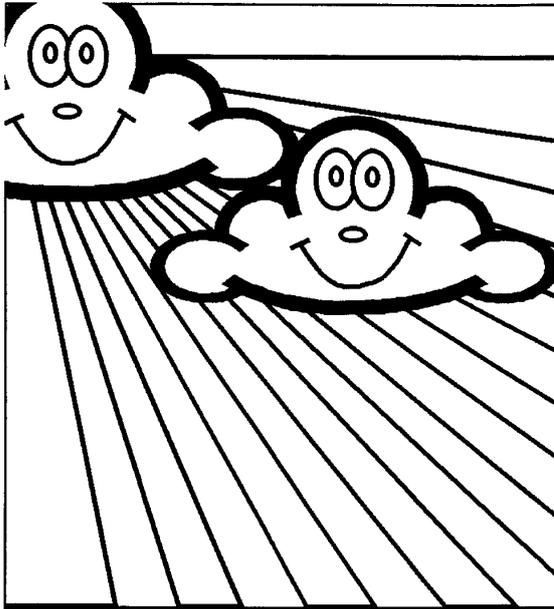

- Love - loving with the same kind of love that God has for us; loving God and treating others the way you would like to be treated yourself.
- Joy - the happiness that God gives; sharing God's happiness with others.
- Peace - a calm feeling inside, knowing that God is looking after you; letting God take all your worries.
- Patience - learning to wait; not getting angry when things are not going as we'd like; sticking to a job and not giving up.
- Kindness - treating others with special care; thinking about how other people feel; doing special things for others.
- Gentleness - showing kindness and understanding; not being 'pushy'; thinking about how others feel.
- Goodness - obeying God's word and doing the right thing.
- Faithfulness – never leaving or giving up on someone.
- Self-control - not losing your temper; knowing when to stop; saying 'n' when you feel like doing the wrong thing.

How do these Fruits make you feel? Copy the table and draw a picture for each.

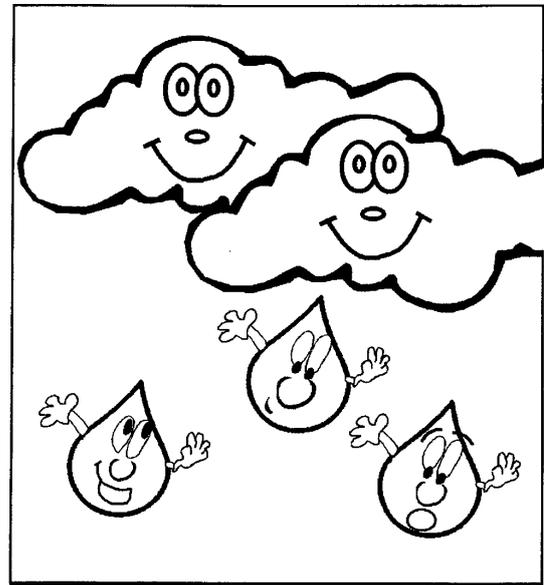

Love – I feel warm inside.	Joy – I feel happy!	Peace – I feel calm inside.
Patience – I try not to feel annoyed when things don't go my way.	Kindness – I feel cared for, and I care for others.	Gentleness – I am careful with things and careful with people's feelings.
Goodness – I feel clean inside because I choose to do the right thing.	Faithfulness – I am loyal to my friend and family, and I feel strong inside.	Self-control – I stop myself from showing bad behaviour.

God is Creator – Mini-beasts (insects and very small creatures)

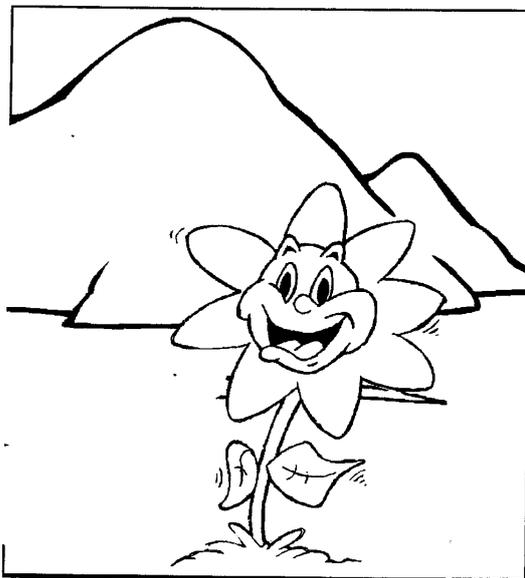

Make a book about the days of creation.

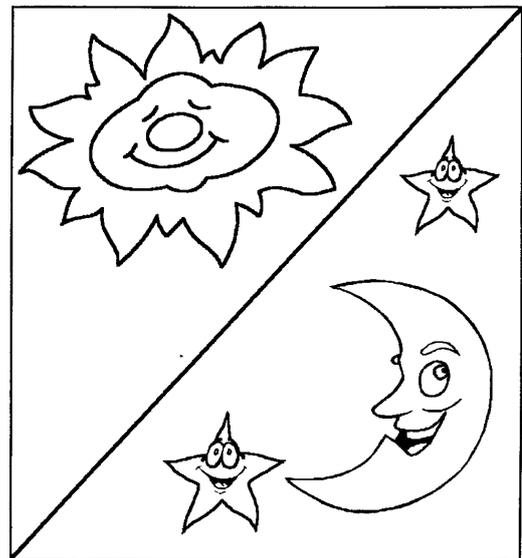

On the first day, God separated light from darkness.

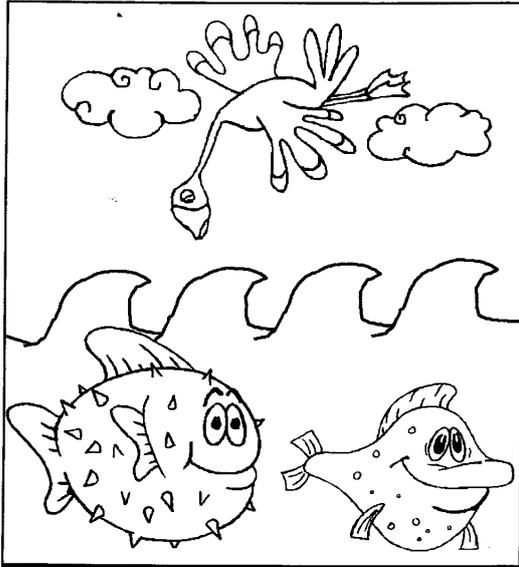

On the second day, God made the sky and the water.

On the third day, God made dry land and plants.

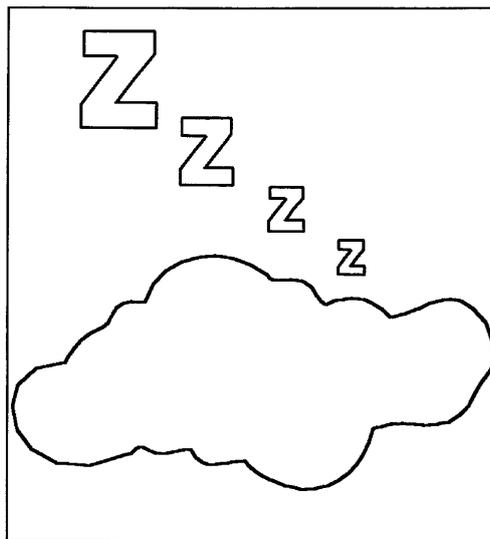

On the fourth day, God made the sun, moon and stars.

On the fifth day, God made the birds in the sky and the fish in the oceans.

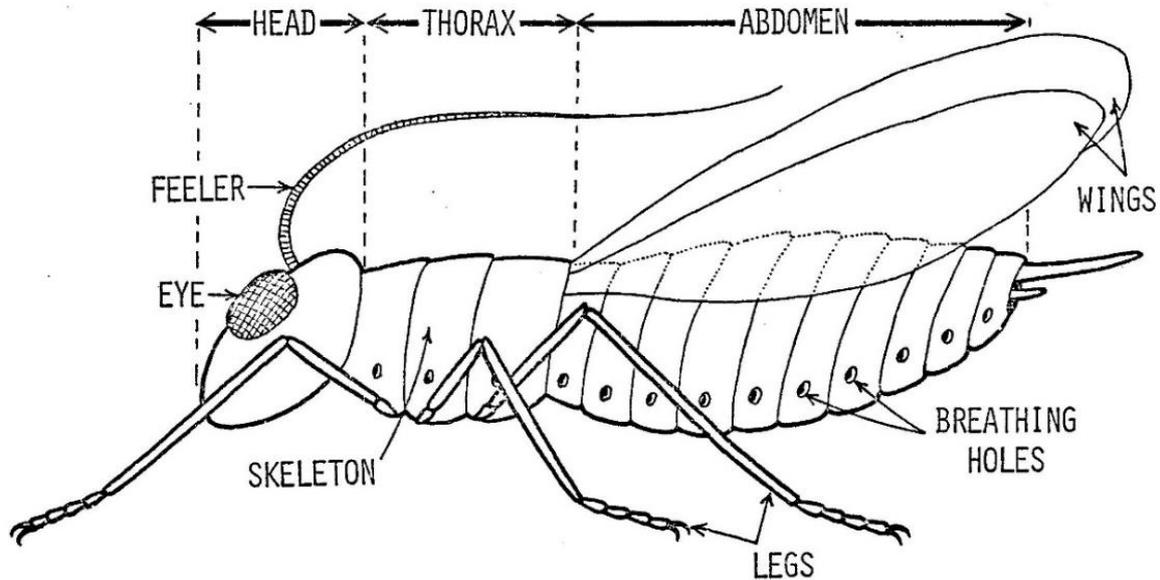

On the sixth day, God made the animals and man.

On the seventh day, God rested.

What does an insect have?

Draw a picture in your book.

All insects have:

- 6 legs with joints
- A body in 3 parts – head, thorax, abdomen
- A skeleton on the outside of the body
- A pair of eyes
- A pair of feelers (antennae)
- Breathing holes along each side of the body
- Wings (Most insects, like bees, have 2 pairs; some insects, like flies, have one pair: some insects, like fleas, have no wings)

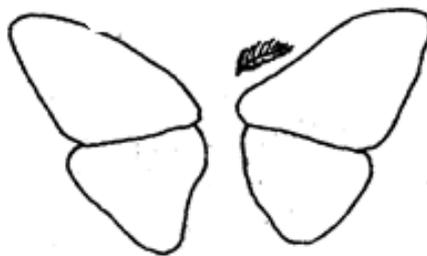

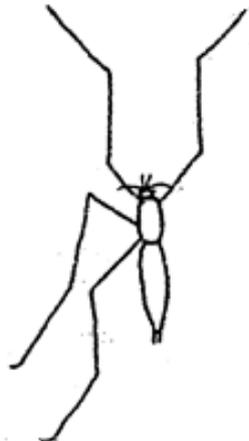

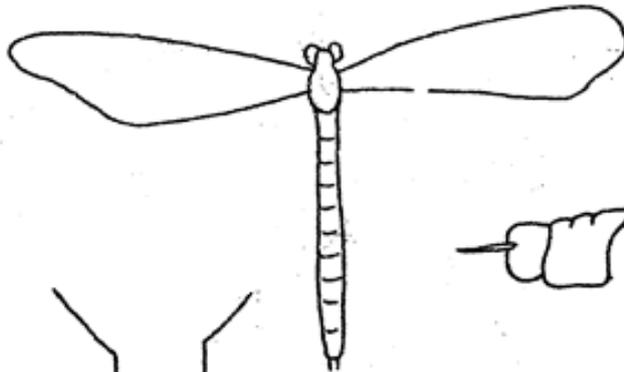

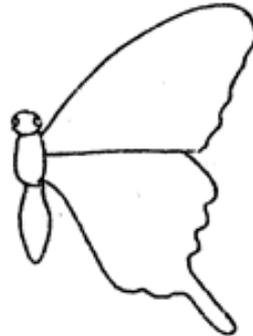

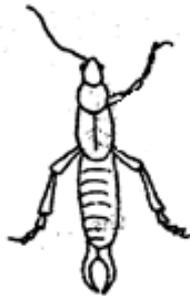

Now write 6 sentences about insects.

Drawing insects

All Insects have:

- 6 legs
- A head, a middle and a tail
- 2 eyes and 2 feelers
- Most insects have wings

These insects have many parts missing. Draw each insect in your book and put in all the missing parts. Think about the number of legs, the feelers and the wings.

Make a book. Draw a picture for each box.

Insects

1

Insects have three parts to their bodies. They have a head, a chest and a stomach.

2

Insects have six legs.

3

Some insects have wings. Some do not have wings.

4

**Butterflies have wings.
Bees have wings.**

5

Some ants have wings. Some ants do not have wings.

6

There are many kinds of insects.

7

Some insects help us. Some insects eat other little insects on our plants. A ladybird beetle is one of these.

8

Bees help us. They make honey.

9

**Some insects do not help us.
Flies carry germs on to our food.**

10

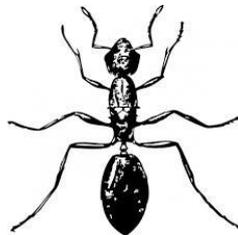

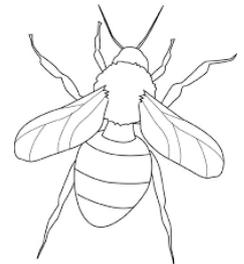

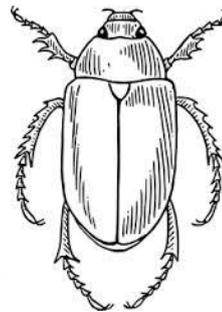

**Mosquitoes do not help us.
They bite us.**

11

**All insects have babies. Baby
insects come from eggs. Insects lay
their eggs in many places, like on a
leaf.**

Butterfly

The caterpillar covers itself with a chrysalis. It will change into a butterfly. Copy the drawings write a sentence for each picture to say what is happening.

On the next page use the information to make a book of 12 pages. Draw pictures.

<p>Butterflies and moths</p> <p>1</p>	<p>Butterflies and moths have six legs. They are insects.</p> <p>2</p>
<p>Butterflies have knobs on the end of their feelers. Moths have feelers that look like feathers.</p> <p>3</p>	<p>Butterflies rest with their wings together. Moths rest with their wings apart.</p> <p>4</p>

<p>Butterflies come out during the day. Moths come out at night.</p> <p>5</p>	<p>Butterflies and moths start life as tiny eggs. Caterpillars hatch from the eggs. The eggs are on a leaf.</p> <p>6</p>
<p>The caterpillars eat the leaves and grow bigger.</p> <p>7</p>	<p>When it is big enough the caterpillar hangs upside down from the leaf and makes a hard case around its body. This is a cocoon.</p> <p>8</p>

<p>Inside the cocoon the caterpillar's body changes to become a butterfly or moth.</p> <p style="text-align: right;">9</p>	<p>After about six days the case splits open and the butterfly pulls itself out.</p> <p style="text-align: right;">10</p>
<p>The butterfly holds its wings out to dry in the sun.</p> <p style="text-align: right;">11</p>	<p>The butterfly flies away. Soon she will lay eggs on a leaf and some new baby caterpillars will hatch.</p> <p style="text-align: right;">12</p>
