

Water

Oceans and rivers, ponds and the sea,
raindrops and snowflakes, falling for me.

Water is wonderful, a gift from God.
Water is beautiful, sparkling in the sunlight.

It falls over cliffs and waterfalls.

It crashes on the seashore in big waves.

Water falls from the sky making rivers and streams.

Water comes from springs in the ground. It can be pumped for us to use.

Water falls from the clouds as snowflakes and hail. They are small pieces of ice.

Water is the home of thousands of fish of all different colours and sizes.

Water is the home of octopuses and sharks,
and of whales, the biggest animals in the
world.

Trees, flowers and gardens need water to live.
So do insects and birds and all the animals.

All people, and all of God's creatures need water to live. Thank you, God, for the wonderful gift of water.
