

God's Creation: Day and Night

God created the heavens and the earth. He made the night and the day. Then God made the oceans, mountains, and all the living things on earth.

Draw a big circle like the one in the middle of the page. Draw a line down the middle – day on one side and night on the other.

Now draw the things that happen in the day on the DAY side, and the things that happen at night on the NIGHT side.
